

CETPartnership
Clean Energy Transition Partnership

National requirements
CETPartnership Joint Call 2022

17 November 2022

The Clean Energy Transition Partnership is a transnational joint programming initiative to boost and accelerate the energy transition, building upon regional and national RDI funding programmes. The initiative is receiving funding from the European Union's research and innovation programme "Horizon Europe" under grant agreement No 101069750.

Contents

Annex B – National/regional requirements (this information is tentative, please see Section 3.2. for confirmed contributions)	4
AUSTRIA – Austrian Research Promotion Agency (FFG)	5
BELGIUM/FLANDERS – Fonds Innovatie en Ondernemen (FIO/VLAIO)	8
BELGIUM/WALLONIA – Service Public de Wallonie (SPW)	11
CANADA/ALBERTA REGION - Emissions Reduction Alberta (ERA)	14
CYPRUS – Research and Innovation Foundation (RIF).....	18
CZECH REPUBLIC – Technology Agency of the Czech Republic (TA CR)	20
DENMARK – Energy Technology Development and Demonstration Programme (EUDP)	25
DENMARK – Innovation Fund Denmark (IFD)	28
ESTONIA – Estonian Research Council (ETAG)	30
ESTONIA – Ministry of Economic Affairs and Communications (MKM).....	35
FINLAND – Innovaatorahoituskeskus Business Finland (BF)	40
FRANCE – Agence de la transition écologique – (ADEME)	42
FRANCE – Agence Nationale de la Recherche (ANR).....	44
FRANCE/REGION PAYS DE LA LOIRE - Pays de la Loire Region Council (RPL)	47
GERMANY - Federal – Forschungszentrum Jülich GmbH, Project Management Jülich (FZJ/PtJ) on behalf of BMWK.....	49
GERMANY/ NORTH RHINE-WESTPHALIA – Forschungszentrum Jülich GmbH, Projektträger Jülich (FZJ/PtJ) on behalf of MWIKE	52
GERMANY/SAXONY – Saxon State Ministry for Science, Culture and Tourism (SMWK)	55
GREECE – GENERAL SECRETARIAT FOR RESEARCH AND INNOVATION (GSRI)	58
HUNGARY – National Research, Development and Innovation Office (NKFIH)	63
ICELAND – The Icelandic Centre for Research (RANNIS).....	66
IRELAND – Geological Survey Ireland (GSI)	68
IRELAND – Sustainable Energy Authority of Ireland (SEAI)	71
ISRAEL – Ministry of Energy (MoE).....	73
ITALY – Ministero Dell’universita’ E Della Ricerca (MUR)	76
ITALY – Ministero dello sviluppo economico (MISE).....	79
LATVIA – LATVIJAS ZINĀTNES PADOME (LZP)	81
LITHUANIA – Ministry of Energy of the Republic of Lithuania (ENMIN)	83
MALTA – Malta Council for Science and Technology (Programme Manager) (MCST).....	86
THE NETHERLANDS– Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO)	91
THE NETHERLANDS – Rijksdienst voor Ondernemend Nederland (RVO)	96
NORWAY – The Research Council of Norway – (RCN).....	100

POLAND – The National Centre for Research and Development (Narodowe Centrum Badań i Rozwoju, NCBR)	103
PORTUGAL – FUNDAÇÃO PARA A CIÊNCIA E A TECNOLOGIA I.P. (FCT)	106
ROMANIA – Executive Agency for Higher Education, Research, Development and Innovation Funding (UEFISCDI).....	108
SPAIN – Agencia Estatal de Investigación (AEI)	110
SPAIN – The Centre for the Development of Industrial Technology (CDTI)	114
SPAIN/ASTURIAS– Fundación para el fomento en Asturias de la Investigación Científica Aplicada y la Tecnología (FICYT)	116
SPAIN/BASQUE REGION – Consejería De Desarrollo Económico, Sostenibilidad Y Medio Ambiente. Eusko Jaurlaritza-Gobierno Vasco. (EUSKADI)	118
SPAIN/BASQUE REGION – ENTE VASCO DE LA ENERGÍA (EVE)	120
SPAIN/CANTABRIA – Regional Development Agency of Cantabria (SODERCAN)	123
SWEDEN – Swedish Energy Agency (SWEA).....	125
SWITZERLAND – Federal Department of the Environment, Transport, Energy and Communications (DETEC-SFOE)	129
SWITZERLAND – SWISS NATIONAL SCIENCE FOUNDATION, (SNSF).....	131
TÜRKIYE – The Scientific and Technological Research Council of Türkiye (TUBITAK)	134
UNITED KINGDOM/SCOTLAND – Scottish Enterprise (SE)	137
UNITED STATES OF AMERICA – Department of Energy Office of Fossil Energy and Carbon Management (DOE FECM)	140

Annex B – National/regional requirements (this information is tentative, please see Section 3.2. for confirmed contributions)

AUSTRIA – Austrian Research Promotion Agency (FFG)

a) National/Regional information and eligibility criteria

<p>Contact Point</p>	<p>FFG – Program Manager:</p> <p>For TRI 3, 5 & 6: Urban Peyker urban.peyker@ffg.at +43-5-7755 5049</p> <p>For TRI 3: Johannes Fritzer johannes.fritzer@ffg.at +43 57755 5032</p>
<p>Funding commitment</p>	<p>TRI 3: € 2,0 mio. from Federal <i>Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK)</i></p> <p>TRI 5: € 1,8 mio. (from Federal Ministry for Climate Action, Environment, Energy, Mobility, Innovation and Technology (BMK))</p> <p>TRI 6: € 2,1 mio. from Climate & Energy Fund</p>
<p>Anticipated number of projects to be funded by the funding partner</p>	<p>n.a.</p>
<p>Maximum funding per awarded project/per partner</p>	<p>Max. funding per project € 2 mio.</p>
<p>Eligibility of a partner as a beneficiary institution</p>	<p>Companies, Research Organizations (Universities etc.) and others (Municipalities, NPOs)</p>
<p>Eligible topics</p>	<p>TRI 3: Austrian participation is limited to module “Enabling Climate Neutrality with renewable fuels and hydrogen”</p> <p>TRI 5: no particular national limitations or specifications</p> <p>TRI 6: no particular national limitations or specifications</p>

Eligible type of research and TRL	Industrial research & experimental development TRL 3 – 8
Submission of the proposal at national/regional level	Yes
Additional eligibility criteria for the funding agency	For TRI 3 Applications: Thematic restriction for Austrian participants to green hydrogen (as a fuel, produced by electrolysis or based on biogenic raw materials) or fuels produced by the use of green hydrogen as a reactant (e.g. Power-Liquid, Power-to-Gas, Power-to-Ammonia ...). If the application of such fuels in the vehicle is the task of the Austrian participant, the preferred areas of application (hardly to be electrified transport sectors, e.g. heavy-duty road transport, shipping, aviation and hardly to electrify rail transport) as named in the Austrian hydrogen strategy must be taken into account.
Eligible costs	All project related costs (e.g. Personnel, Equipment, Consumables, Training, Travels, etc.) Costs must be allocated directly to the project, incurred during the funding period in addition to normal operating expenses, correspond to the funding contract and can be proven
Information available at	https://www.ffg.at/CETPartnership
Other	Applicants are strongly encouraged to contact FFG before submitting a preproposal. In parallel to the submission of the joint proposal by the coordinator, a simplified national application is to be submitted via the FFG electronic submission system eCall by participants requesting funding by FFG (both in the preproposal and in the full proposal stage).

b) Funding rates

Maximum funding percentages:

	Industrial/Applied Research	Experimental development/innovation
Large Enterprises	55%	35%
Medium Enterprises	70%	50%

Small Enterprises	80%	60%
Universities, public research organisations	85%	60%
Associations without economic activities, NGOs	80%	60%

BELGIUM/FLANDERS – Fonds Innovatie en Ondernemen (FIO/VLAIO)

a) National/Regional information and eligibility criteria

Contact Point	Frank Verschraegen , frank.verschraegen@vlaio.be , +32 471 55 98 19
Funding commitment	1.000.000 euro, excluding EC topup
Anticipated number of projects to be funded by the funding partner	2-3
Maximum funding per awarded project/per partner	500.000 euro per awarded project
Eligibility of a partner as a beneficiary institution	VLAIO is involving the Programmes for Development projects and Research projects. Therefore the involvement of at least one private company (SME or large company) based in Flanders is mandatory (with the possibility to cooperate with research organisations).
Eligible topics	All 11 modules of call 1.
Eligible type of research and TRL	Research projects and Development projects, up to TRL 7.
Submission of the proposal at national/regional level	An annex is to be submitted together with the international project proposal to Flanders Innovation and Entrepreneurship. The annex(es) must be read together with the international project proposal. For this reason the focus of this annex should <u>only</u> be on the role of the (Flemish) company in the project, the nature of the activities to be carried out by the Flemish partners and the impact of the project results for the company in particular.

Additional eligibility criteria for the funding agency	<p>Applicants should motivate how the realization of the project will create added value for the company in Flanders.</p> <p>Subsidies range from: 35-60% for development projects 60-70% for research projects</p>
Eligible costs	<p>Personnel costs and related direct and indirect costs according to VLAIO rules.</p>
Information available at	<p>Application process for research project grant Agentschap Innoveren en Ondernemen (vlaio.be)</p> <p>The template annex for international and interregional projects can be found under the documents section. The template budget application can also be found here.</p> <p>Subsidies voor O&O&I in een internationaal consortium Agentschap Innoveren en Ondernemen (vlaio.be)</p>
Other	<p>It is advised to contact VLAIO before submission (see contact point above), in order to avoid ineligible projects and consortia.</p>

b) Funding rates

Maximum funding percentages (in case the Flemish company cooperates with 1 or more Flemish research organisations):

	Basic research	Industrial/Applied Research	Experimental development/innovation
Large Enterprises	N/A	65%	40%
Medium Enterprises	N/A	70%	50%

Small Enterprises	N/A	70%	60%
Universities, public research organisations	N/A	As research partner of the enterprise, same funding rates as above.	As research partner of the enterprise, same funding rates as above.
Public authorities	N/A	Not funded	Not funded
Associations without economic activities, NGOs	N/A	Not funded	Not funded

Maximum funding percentages (in case the Flemish company does not cooperate with 1 or more Flemish research organisations):

	Basic research	Industrial/Applied Research	Experimental development/innovation
Large Enterprises	N/A	60%	35%
Medium Enterprises	N/A	60%	45%
Small Enterprises	N/A	60%	50%
Universities, public research organisations	N/A	As research partner of the enterprise, same funding rates as above.	As research partner of the enterprise, same funding rates as above.
Public authorities	N/A	Not funded	Not funded
Associations without economic activities, NGOs	N/A	Not funded	Not funded

BELGIUM/WALLONIA – Service Public de Wallonie (SPW)

a) National/Regional information and eligibility criteria

Contact Point	Gilles Tihon, 081/48 63 53 gilles.tihon@spw.wallonie.be Marie Suleau, 081/ 38 45 04 marie.suleau@spw.wallonie.be
Funding commitment	From Wallonia : 900.000,00€
Anticipated number of projects to be funded by the funding partner	?
Maximum funding per awarded project/per partner	900.000€ Fundings vary according to TRL and type of supports
Eligibility of a partner as a beneficiary institution	Participation of a private company is mandatory (minimum 40% of total Walloon budget). According to the rules of SPW. - Industrial Researches (TRL 3 to 5) : Universities, Research Centers, SME, large companies, settled in Wallonia - Experimental Development (TRL 6 to 7 (8)) : only SMEs and large companies settled in Wallonia - other companies for promotion activities
Eligible topics	All topics are accepted for the pre-proposal phase
Eligible type of research and TRL	See above
Submission of the proposal at national/regional level	YES, mandatory within five days of the submission The pre-proposal can be in English. If selected for presenting a proposal, this proposal must be in French AND English
Additional eligibility criteria for the funding agency	Eligibility criteria : - The partners in Wallonia MUST give a pdf file from their 2021 balance published on Banque Nationale de Belgique - The project cannot receive double funding; a specific form has to be filled in; - The budget for the Walloon partners should follow the SPW-EER (DGO6) cost model; - The funding rate will be the maximum allowed by the decree of the 3rd of July 2008, modified; - The beneficiary must have a stable financial situation; A financial viability check has to be carried out before being recommended for full proposal. - The beneficiary must have Operational offices in the Walloon Region; - The project must add benefit to the regional economy; - All information needed for evaluation should be available;

	- A Walloon complementary funding request's form must be submitted to the SPW-EER (DGO6) for full proposal within five working days after the call deadline; proposal must be in French and in English
Eligible costs	Available : https://recherche.wallonie.be/guide-depenses-eligibles
Information available at	Will be published on https://recherche.wallonie.be/home.html and https://energie.wallonie.be/fr/index.html?IDC=6018
Other	

b) Funding rates

Maximum funding percentages:

Taux de financement pour les partenaires wallons, Recherche Industrielle, TRL 3 à 5			
	Subvention		
	Taux de base	Si les partenaires wallons comptent au moins 2 entreprises et sous réserve des autres conditions (1) décret 3/7/2008 art. 18	Si le partenariat international compte au moins 2 entreprises dont l'une d'elles réalise une partie du projet hors Belgique et sous réserve des autres conditions (2) décret 3/7/2008 art. 19
Universités	100%	inchangé	inchangé
Centres de recherche	75%	inchangé	inchangé
Petite entreprise	70%	80%	80%
Moyenne entreprise	60%	70%	70%
Grande entreprise	50%	60%	60%
<p>(1) Autres conditions: -> les 2 entreprises sont indépendantes, sans sous-traitance de l'une à l'autre -> aucune des entreprises ne supporte plus de 70% des dépenses admissibles de l'ensemble des ENTREPRISES WALLONNES ->au moins une de ces entreprises est une petite ou moyenne entreprise</p>			

(2) Autres conditions:

-> les 2 entreprises sont indépendantes, sans sous-traitance de l'une à l'autre

-> aucune de ces entreprises ne supporte seule plus de 70 % des dépenses admissibles de l'ensemble des ENTREPRISES du projet

-> Une partie de projet qui correspond à 50 % des dépenses admissibles de l'ensemble des entreprises, est réalisée en Wallonie.

Taux de financement pour les partenaires wallons, Développement Expérimental, TRL 6 à 7 (8)

	Subvention		
	Taux de base (4)	Si les partenaires wallons comptent au moins 2 entreprises et sous réserve des autres conditions (5) Décret 3/7/2208, art. 23	Si le partenariat international compte au moins 2 entreprises dont l'une d'elles réalise une partie du projet hors Belgique et sous réserve des autres conditions (6) Décret 3/7/2008 art. 24
Universités, Hautes Ecoles et Organisme de recherche	(7)(8)	(7)(8)	(7)(8)
Centres de recherche	75%	inchangé	inchangé
Petite entreprise	55%	60%	60%
Moyenne entreprise	45%	50%	50%
Grande entreprise	35%	40%	40%

(4) L'aide aux entreprises sous forme de subvention est possible si le montant de l'aide est inférieur à 150.000 euros.

AGW du 18/9/2008, modifié le 18 février 2016, Art. 66/1.

(5) Autres conditions:

-> les 2 entreprises sont indépendantes, sans sous-traitance de l'une à l'autre

-> aucune des entreprises ne supporte plus de 70% des dépenses admissibles de l'ensemble des ENTREPRISES WALLONNES

-> au moins une de ces entreprises est une petite ou moyenne entreprise

Pas de limite au montant de l'aide

(6) Autres conditions:

-> les 2 entreprises sont indépendantes, sans sous-traitance de l'une à l'autre

-> aucune de ces entreprises ne supporte seule plus de 70 % des dépenses admissibles de l'ensemble des ENTREPRISES du projet

-> Une partie de projet qui correspond à 50 % des dépenses admissibles de l'ensemble des entreprises, est réalisée en Wallonie.

Pas de limite au montant de l'aide

(7) Sous certaines conditions, les universités et Hautes Ecoles peuvent obtenir une subvention au taux de 100 % lorsqu'elles participent à des activités de développement expérimental en partenariat avec des entreprises ou des centres de recherche agréés:

-> dans le cadre d'un partenariat d'innovation, qui associe plusieurs entreprises et plusieurs organismes de recherche ou centres de recherche agréés (art. 94)

-> dans le cadre d'une coopération avec un centre de recherche agréé (art. 78)

(8) Les organismes de recherche sont subventionnés au même taux que les Universités et Hautes Ecoles mais leurs frais généraux ne sont pas éligibles

CANADA/ALBERTA REGION - Emissions Reduction Alberta (ERA)

a) National/Regional information and eligibility criteria

Country/Region	Canada/Alberta Region
Funding Organisation	Emissions Reduction Alberta (ERA)
Contact Point	Sanah Dar (Project Specialist – Main Contact) TEL: +1 780-429-9327 Email: sdar@eralberta.ca Mark Summers (Chief Strategy Officer) TEL: +1 780-498-2544 Email: msummers@eralberta.ca
Funding commitment	Total ERA funding envelope is \$5 million CAD (~€3.47 million at current exchange rate). The indicative budget for the following areas is: \$3 million CAD is allocated to CCUS, \$1 million CAD is allocated to Renewable Fuels, and \$1 million CAD is allocated to Hydrogen. ERA in its sole discretion reserves the right to modify the total funding available under this Call.
Anticipated number of projects to be funded by the funding partner	Approximately 5-7 anticipated. No minimum or maximum specified.
Maximum funding per awarded project / per partner	\$1 million CAD (~€762,800 at current exchange rate) per project. ERA in its sole discretion reserves the right to modify the maximum funding awarded per project.
Eligibility of a partner as a beneficiary institution	ERA funding is open to all categories of applicant, including technology developers, industry, industrial associations, small and medium-sized enterprises (SMEs), research and development (R&D) organizations, universities, municipalities, not-for-profit organizations, government research labs, and individuals.
Eligible topics	All focus areas mentioned in the CETP-TRI3 Joint Call guidelines are eligible for Alberta/Canada. However, the following areas for CCUS & Hydrogen are NOT eligible for Canada/Alberta region: <ul style="list-style-type: none"> • Acid gas injection • Offshore storage • Projects whose primary focus is point-to-point transportation or sequestration elements. For all focus areas, ERA funding will NOT be provided to projects whose primary focus is commercially proven technologies/processes, activities assessed to be business-as-usual, or to address only financial barriers.

Eligible type of research and Technology Readiness Level (TRL)	ERA funding is targeted for projects at the technology scale-up, field pilot, commercial demonstration, or commercial implementation stages (TRL 5-9).
Submission of the (pre)proposal at the national level	In addition to the ACT proposal, ERA may require applicants, during the <u>full proposal stage</u> ONLY, to provide supplemental information to support due diligence and portfolio reporting. This information may include detailed budget information, financial report(s), an extended Greenhouse Gas benefits analysis, and/or additional information on the specific alignment with the Alberta market. Supplemental information relates to both the overall project and the component of the project based in Alberta. The final document for the Supplemental Information must be no more than 20 pages in length excluding appendices. Financial reporting will be required for the Alberta-based partner(s) on the project and is mandatory for the project partner that will receive funding from ERA. The Supplemental Information document, budget sheet and appendices must be submitted via email to ERA Applications at applications@eralberta.ca.
Additional eligibility criteria for the funding agency	Applicants are NOT required to be located in Alberta, but all applicants must demonstrate a clear value proposition for the province. Applicants must demonstrate how the proposed technology or application thereof is an innovative solution for emissions reduction in Alberta.
Eligible costs	<p>ERA will match applicant contributions toward eligible expenses on a one-to-one (1:1) basis. The maximum ERA contribution to a single project will be no more than 50% of the project’s eligible expenses.</p> <p>ERA will not match other government funds provided directly for the proposed project (federal, provincial, or international), or future revenue associated with the outcomes of the project such as offset credits or emissions performance credits associated with the project, tax incentives associated with the project (e.g., Canadian SR&ED credits), revenue from sales of the project’s end-products (e.g., from offtake agreement), or non-eligible contributions. Applicants must justify the amount of funding requested.</p> <p>For information about eligible expenses and costs, please refer to the <i>ERA Eligible Expenses and Cost Instructions document</i> available at https://erims.outcome-plus.com/Content/Files/ERIMS/Files/ERA%20Eligible%20Expenses%20and%20Cost%20Instructions%20November%202021.pdf.</p>
Maximum amount of requested funding	The maximum funding contribution from ERA for any one project is \$1 million CAD (~€762,800 at current exchange rate). ERA in its sole discretion reserves the right to modify the maximum funding awarded per project.
Website with additional information	https://eralberta.ca

<p>Additional information</p>	<p>Alberta is home to the Alberta Carbon Conversion Technology Centre (ACCTC), a real-world test bed for carbon capture and conversion technologies. Applicants are strongly encouraged to consider piloting or testing their technology at the ACCTC. See https://innotechalberta.ca/research-facilities/alberta-carbon-conversion-technology-centre-acctc/ for more information.</p> <p>Hydrogen Centre of Excellence (HCOE) is led by Alberta Innovates, with the applied research and engineering expertise of InnoTech Alberta and C-FER Technologies. The HCOE is a funding program, testing and service facility, and forum for facilitating partnerships to de-risk hydrogen technology development. Applicants may reach out to the HCOE for assistance with developing partnerships in the hydrogen community. See https://albertainnovates.ca/programs/hydrogen-centre-of-excellence/ for more information.</p> <p>InnoTech Alberta has a set of services for hydrogen production, infrastructure, and end-use applications. Applicants are encouraged to consider the expertise or facilities needed for testing hydrogen technologies at InnoTech Alberta. See https://innotechalberta.ca/services/hydrogen/ for more information.</p> <p>C-FER Technologies has a collection of services for hydrogen & CO₂ pipeline integrity, hydrogen & CO₂ underground storage, and ensuring hydrogen & CO₂ can be transported and used safely. Applicants are encouraged to consider the expertise or facilities needed for testing hydrogen and CO₂ technologies at C-FER Technologies. See https://www.cfertech.com/hydrogen/ for more information.</p> <p>The International CCS Knowledge Centre (Knowledge Centre) offers insight into practical CCS deployment considerations. It is dedicated to advancing the understanding and use of a large-scale CCS/CCU as a means of managing GHG (greenhouse gas) emissions. Applicants may engage with the Knowledge Centre for assistance with proposal development or project delivery at their own expense. See https://ccsknowledge.com for more information.</p>

DENMARK – Energy Technology Development and Demonstration Programme (EUDP)

a) National/Regional information and eligibility criteria

Contact Point	<p>Wickie Lassen Agdal wbl@ens.dk +45 33 92 92 73</p> <p>Henrik T. Aa. Friis htaf@ens.dk +45 33 92 77 99</p>
Funding commitment	1.340.000 EUR
Anticipated number of projects to be funded by the funding partner	N/A
Maximum funding per awarded project/per partner	1.340.000 EUR
Eligibility of a partner as a beneficiary institution	Public and private business enterprises, as well as knowledge institutions, are eligible for aid. However, it is required that at least one Danish private business enterprise participates as an active partner. An active partner should have a significant expected contribution to generate growth and/or employment in a Danish context, and/or contribute to the Danish climate policy objectives (e.g. CO ₂ -reductions and independence from fossil fuels).
Eligible topics	<p>EUDP can fund topics within the following TRI's:</p> <ul style="list-style-type: none"> • TRI1 RESpowerflex • TRI3 CCUS • TRI3 Renewable fuels and Hydrogen • TRI5 Integrated Regional Energy Systems for a Resilient, Secure, and Renewable Energy Supply • TRI6 Industrial energy systems
Eligible type of research and TRL	<p>EUDP supports projects within TRL 4-8.</p> <p>EUDP do not fund projects that <u>only</u> contains research activities (TRL 0-3). However, projects that combines research activities with development- and demonstration activities are eligible for funding. Applications with research content are assessed by Innovation Fund Denmark. If Innovation Fund Denmark concludes that the research content is not eligible for funding EUDP cannot fund the project.</p> <p>EUDP only funds project activities that are related to the development and demonstration of energy technologies.</p>
Submission of the proposal at national/regional level	Yes, EUDP require submission of specific appendices for national eligibility check. The appendices and more information are available at:

	https://eudp.dk/soeg-tilskud .
Additional eligibility criteria for the funding agency	<p>It is required that at least one Danish private business enterprise participates as an active partner.</p> <p>The project should support the Danish energy policy targets and the Danish contribution should advance energy technology development.</p> <p>EUDP require submission of specific appendices for national eligibility check.</p>
Eligible costs	<ul style="list-style-type: none"> • Personnel costs. • Instruments and equipment. • Buildings. • Other operating expenses, including materials. • External/sub-supplies. • Overhead costs. • Other/travelling/dissemination. <p>Danish applicants must comply with the EUDP rules which can be found in the link below (section 3): Danish version / English version</p> <p>It is not possible to receive funding for activities, which aim to:</p> <ul style="list-style-type: none"> • Develop business models, market analyses, direct sales promotion and other commercial market activities, including deploying existing technology or commercial operation of plant and similar. • Expand infrastructure. • Implement preproduction planning or to streamline production or control processes and similar. • Establish new institutions or continue existing institutions through operating grants etc. • Fund operating expenses in connection with partnerships, as these are expected to be paid by the participating parties. • Purchase land and to fund related costs. • Complete case-processing by the authorities in connection with building projects, environmental approvals and similar. • Obtain patents and similar rights.
Information available at	https://eudp.dk/soeg-tilskud
Other	It is recommended that you reach out to the national contact point prior to submitting the application.

ESTONIA – Estonian Research Council (ETAG)

a) National information and eligibility criteria

Contact Point	Name: Maria Habicht E-mail: maria.habicht@etag.ee Tel.: +372 51 74 058
Funding commitment	150 000 €
Anticipated number of projects to be funded by the funding partner	1
Maximum funding per awarded project / per partner	150 000 €
Eligibility of a partner as a beneficiary institution	<p>1. Project Participants</p> <p>1.1. The Host Institution could be any legal entity that is registered and located in Estonia.</p> <p>The Host Institution (the final recipient) is the applicant to which the grant will be allocated.</p> <p>The Host Institution must confirm to Estonian Research Council (with a confirmation letter after the submission deadline) that the project can be carried out on their premises and that they will employ the Principal Investigator during the proposed project, should the project receive funding.</p> <p>If the Host Institution is an undertaking, then State aid and de minimis aid must be taken into account.</p> <p>If the support is State aid or de minimis aid, then support will not be granted to a Host Institution who is subject to a support withdrawal decision pursuant to a previous European Commission decision deeming the aid illegal and incompatible with the common market, if that decision has not been complied with.</p> <p>1.2 The Principal Investigator is a researcher who acts as the Estonian team leader in the project proposal. The Principal Investigator will be responsible for how the grant is used and how Estonia's part in the project is executed.</p> <p>The Principal Investigator:</p> <p>1.2.1 must have an updated public profile in the Estonian Research Information System (ETIS) – https://www.etis.ee/Portal/News/Index/?!sLandingPage=true&lang=ENG by the submission deadline;</p> <p>1.2.2 must hold a doctoral degree or an equivalent qualification. The degree must be awarded at the latest by the submission deadline of the grant application;</p> <p>1.2.3 must have published at least three articles that comply with the requirements of Clause 1.1 of the ETIS classification of publications, or at least</p>

	<p>five articles that comply with the requirements of Clauses 1.1, 1.2, 2.1 or 3.1, within the last five calendar years prior to the proposal submission deadline.1 International patents are equaled with publications specified under Clause 1.1. A monograph (ETIS Clause 2.1) is equaled with three publications specified in Clause 1.1 if the number of authors is three or fewer. If the applicant has been on pregnancy and maternity or parental leave or performed compulsory service in the Defense Forces, or has another good reason, they can request the publication period requirement to be extended by the relevant period of time.</p>
Eligible topics	All topics
Eligible type of research and TRL	<p>Strategic (basic) research</p> <p>Applied research</p> <p>TRL: 1 - 6</p>
Submission of the (pre)proposal at the national level	No
Additional eligibility criteria for the funding agency	N/A
Eligible costs	<p>2. Budget</p> <p>2.1 Research expenses consist of direct costs (personnel costs, travel costs and other direct costs) and subcontracting costs. The research expenses must be used to carry out the project and be separately identifiable.</p> <p>2.2 Direct costs</p> <p>2.2.1 Personnel costs are monthly salaries with social security charges and all the other statutory costs of the project participants, calculated according to their commitment and in proportion to their total workload at their Host Institution.</p> <p>2.2.2 Travel costs may cover expenses for transport, accommodation, daily allowances and travel insurance.</p> <p>2.2.3 Other direct costs are:</p> <ul style="list-style-type: none"> - consumables and minor equipment related to the project; - publication and dissemination of project results; - organising meetings, seminars or conferences (room rent, catering); - fees for participating in scientific forums, conferences and other events related to the project; - patent costs; - all other costs that are identifiable as clearly required for carrying out the project (e.g. translation, copy editing, webpage hosting, etc.) and comply with the eligible costs. <p>2.2.4 Subcontracting costs should cover only the additional or complementary research related tasks (e.g. analyses, conducting surveys, building a prototype,</p>

	<p>etc.) performed by third parties. Subcontracting costs should not be included in the overhead calculation. The activities and budget should be described in the proposal. Core project tasks should not be subcontracted. Subcontracting costs may not exceed 15% of the total costs.</p> <p>2.4 Indirect costs are overhead from the personnel costs only, which may not exceed 15% and should cover the general expenses of the Host Institution. Costs for equipment and services intended for public use (a copy machine or a printer that is publicly used, phone bills, copy service, etc.) should be covered from the overhead.</p> <p>2.5 Double funding of activities is not acceptable.</p>
Maximum amount of requested funding	150 000
Website with additional information	https://etag.ee/en/cooperation/horizon-europe/eu-partnerships/era-nets/
Additional information	<p>3. State Aid</p> <p>EU Regulations on State aid and de minimis aid must be taken into account when requesting funding from the Estonian Research Council (ETAg).</p> <p>Support is not considered to be State aid for research and development, if the project has ties to the non-economic activities of the Research (or Host) Institution, as long as the research and development activities and the related costs, funding and revenue can be clearly separated, thus avoiding the cross subsidization of economic activity.</p> <p>The criteria defined in Clauses 17-22 of Communication from the European Commission – Framework for State aid for research and development and innovation (2014/C 198/01) forms the basis for determining whether the activities carried out are economic activities and whether the Host Institution is an undertaking who is considered to be a State aid recipient when it receives support.</p> <p>When an entity applies for State aid or de minimis aid, it has to fill in the State aid form. No tax arrears are allowed on the proposal submission date.</p> <p>If State aid and de minimis aid are given, the documents related to giving the support must be kept for 10 years as of the date when the agreement was entered into.</p> <p>State aid pursuant to the Block Exemption Regulation</p> <p>If the support is considered to be State aid, then support is given on the basis of Article 25, 25a or 25c of Commission Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (OJ L 187, 26.6.2014, p. 1–78) (hereinafter the Block Exemption Regulation), and the provisions of the Commission Regulation and Section 34² of the Estonian Competition Act apply.</p> <p>State aid is not given in cases specified under Articles 1(2) to (5) of the Block Exemption Regulation.</p>

	<p>If State aid is given on the basis of Article 25, the eligible costs of the project activities must comply with the requirements specified under Article 25(3) of the Block Exemption Regulation (except clause (c)), and the maximum aid intensity must comply with Articles 25(5) and (6). For State aid given on the basis of Articles 25a or 25c, see rules laid down in mentioned Articles accordingly.</p> <p>If the support applied for can be considered to be State aid, the application must include the information specified in Article 6(2) of the Block Exemption Regulation, and the application has to be submitted before the start of the activities.</p> <p>If State aid is given, then the costs of the activities carried out before application submission will not be eligible for aid.</p> <p>De minimis aid</p> <p>If support is considered de minimis aid, then giving support is subject to Commission Regulation (EU) No 1407/2013 on the application of Articles 107 and 108 of the Treaty on the Functioning of the European Union to de minimis aid (OJ L 352, 24.12.2013, p. 1–8) (hereinafter the De Minimis Aid Regulation), and the provisions of the Regulation and Section 33 of the Estonian Competition Act apply.</p> <p>De minimis aid is not given in cases specified under Article 1(1) of the De Minimis Aid Regulation.</p> <p>In case of de minimis aid, the maximum aid intensity must comply with Article 3 of the De Minimis Aid Regulation.</p> <p>De minimis aid given to the Host Institution together with de minimis aid applied for as support cannot exceed 200,000 euros during the current financial year and the two previous financial years.</p> <p>Article 5 of the De Minimis Aid Regulation applies to cumulating de minimis aid.</p> <p>A single undertaking is an undertaking specified in Article 2(1) of the De Minimis Aid Regulation.</p> <p>4. Grant Agreement</p> <p>If a positive funding decision is made, the Estonian Research Council enters into a grant agreement with the Host Institution. Information on the transnational project must be entered into ETIS once the agreement has been signed.</p> <p>The Consortium Agreement should be signed at the latest six months after the grant agreement has been signed. If one year has elapsed and the CA has not been signed, the next instalment of funding will not be paid out.</p> <p>5. Research Involving Human Subjects or Animal Testing</p> <p>If human research or animal testing are intended in the project, a positive resolution by the Human Research Ethics Committee or the Authorisation Committee for Animal Experiments must be submitted to the Estonian Research Council by the start of the relevant activities.</p>
--	---

	<p>6. Nagoya Protocol</p> <p>By applying for funding by the Estonian Research Council, the applicants agree to consider the relevance of the Nagoya protocol for their research, and to submit the Due Diligence Declaration, if applicable.</p>

FRANCE – Agence Nationale de la Recherche (ANR)

a) National/Regional information and eligibility criteria

Contact Point	<p>Name: Pascal Bain Head of the Scientific Department Pascal.bain@agencerecherche.fr</p> <p>Name: Elisa Meriggio Scientific Project Officer Elisa.meriggio@agencerecherche.fr</p>
Funding commitment	3 000 000 €
Anticipated number of projects to be funded by the funding partner	8 to 10
Maximum funding per awarded project/per partner	<p>500 000 € per project as a maximum in exceptional and highly justified cases.</p> <p>However, ANR expects typical funding requests per project to range between 200 000 and 350 000 €, depending on the number of ANR-funded partners involved and whether the coordinator of the project is funded by ANR or not.</p>
Eligibility of a partner as a beneficiary institution	<p>Please consult the ANR Funding regulations and the Appendix for applicants to ANR on the ANR website for detailed information https://anr.fr/fr/rf/</p> <p>Within this framework, public research organisations such as Universities, EPST, EPIC, as well as private entities such as companies, public authorities, NGOs and foundations may be eligible (provided that at least one French public research organisation is involved in the consortium).</p>
Eligible topics	<p>Only the following Call Modules are eligible for ANR:</p> <ul style="list-style-type: none"> - TRI1 PowerTools - TRI2 Breakthrough R&D to increase RE power Technologies efficiency - TRI3 CCUS - TRI3 Renewable fuels and hydrogen. Concerning hydrogen production only green hydrogen production will be eligible for ANR. - TRI4 Heating & cooling - TRI7 R&I in clean energy integration in the built environment
Eligible type of research and TRL	Basic Research, Industrial/ Applied Research/ Experimental development TRL 3-5 (activities at TRL above 5 are possible but must be marginal for partners requesting funding from ANR).
Submission of the proposal at national/regional level	No for the pre-proposal stage.

	For the full-proposal stage, partners requesting funding from ANR will be asked to apply on the ANR submission platform.
Additional eligibility criteria for the funding agency	<p>A project proposal cannot be similar in whole or in part to another proposal submitted for a call currently being evaluated by ANR (all calls for proposals and evaluation stages considered) or already funded by ANR.</p> <p>The similarity between two projects is established when these projects (in their entirety or in part) describe identical main objectives or result from a simple adaptation.</p> <p>The minimal funding per partner by ANR is 15 000 €.</p>
Eligible costs	<p>ANR funds basic, industrial research and experimental development activities.</p> <p>The eligibility of costs and rates of funding depend on types of partners, consortia composition and types of research activities.</p> <p>See ANR funding regulations for more details: https://anr.fr/fr/rf/</p>
Information available at	https://anr.fr/en/
Other	<p>A specific web page on the ANR web site will be published at the opening of the Call, with details for potential applicants to ANR.</p> <p>We highly recommend contacting the national contact persons during the preparation of the project.</p> <p>Depending on the consortium composition, a Consortium Agreement may be mandatory for ANR at the funding stage for successful applications. Please refer to the ANR funding regulations for more details: https://anr.fr/fr/rf/</p>

FRANCE/REGION PAYS DE LA LOIRE - Pays de la Loire Region Council (RPL)

a) National/Regional information and eligibility criteria

Contact Point	Eric MATHIEU +33 (0)6 07 68 29 99 e.mathieu@solutions-eco.fr
Funding commitment	1M€
Anticipated number of projects to be funded by the funding partner	-
Maximum funding per awarded project/per partner	No maximum funding
Eligibility of a partner as a beneficiary institution	Small, Medium and large companies established and carrying out R&D activities in Pays de la Loire. Other entities such as universities, public research institutions, technological centres, and other private non-profit institutions may also participate : they will be funded only if a company from Pays de la Loire is also partner of the consortium and is funded. Project activities in the proposed work plan funded by the Regional Council Pays de la Loire must be implemented in Pays de la Loire, or at least mobilise resources based in Pays de la Loire.
Eligible topics	Target R&D areas of the TRI 2 Call Module for Zero-emission power technologies CH1 : “Advancing RE technologies for power production through cost reduction”: CSP, PV, Wind, Ocean energy, Offshore renewables (the indications of priority R&D areas shall not be considered as prescriptive.)
Eligible type of research and TRL	Projects may comprise industrial/applied research or experimental activities. Projects shall achieve TRL 6 or above for technologies which can provide significant results to the RE power production by 2030
Submission of the proposal at national/regional level	-
Additional eligibility criteria for the funding agency	Companies must have been created since more than one year and have generated sufficient revenues.

Eligible costs	<p>-Personnel costs i.e. the cost of researchers, technicians and other supporting staff to the extent employed on the relevant project or activity (gross salary, without overheads).</p> <p>-Indirect costs: 15% of personnel costs.</p> <p>-Contractual research costs, technical knowledge and patents bought or licensed from outside sources at market prices, and costs for consulting and equivalent services intended exclusively for the research activity.</p> <p>-Other operating expenses, including costs for material, supplies and similar products, which result directly from the research project.</p> <p>Instrument and equipment costs, to the extent and during the period in which they are used for the research project.</p>
Information available at	https://www.paysdelaloire.fr/clean-energy-transition-partnership-cetp
Other	-

b) Funding rates

Maximum funding percentages:

	Basic research	Industrial/Applied Research	Experimental development/innovation
Large Enterprises	N/A	65%	40%
Medium Enterprises	N/A	75%	50%
Small Enterprises	N/A	80%	60%
Universities, public research organisations	N/A	75% of total eligible costs or 100% of marginal costs	75% of total eligible costs or 100% of marginal costs
Public authorities	N/A	-	-
Associations without economic activities, NGOs	N/A	-	-

Support levels will be determined by the legal status of the applicant, the size of company and the proposed activity. The support level may vary from one work package to another. A part of the funding may be attributed through loans. The final support level and its form will be definitively defined after the pre-selection phase.

GERMANY - Federal – Forschungszentrum Jülich GmbH, Project Management Jülich (FZJ/PtJ) on behalf of BMWK

GREECE – GENERAL SECRETARIAT FOR RESEARCH AND INNOVATION (GSRI)

a) National/Regional information and eligibility criteria

Contact Point	<p>-Dr Antonios Gypakis Deputy Head of the Policy Planning Department Planning and Programming of Policy Actions for RTDI Directorate 14-18, Messogeion Ave., GR-115 27 Athens, Greece Tel: +30 213 1300064, E-mail: agyapa@gsrt.gr</p> <p>-Dr Anna Rosenberg International S&T Cooperation Directorate Bilateral and Multilateral Cooperation Section 14-18 Messogeion Ave., GR-115 27 Athens, Greece Tel.: +30 213 13 00 095 Fax: +30 210 7714153 E-mail: a.rosenberg@gsrt.gr</p>
Funding commitment	Initial investment 500.000,00€
Anticipated number of projects to be funded by the funding partner	2-3
Maximum funding per awarded project/per partner	Upper limit of the total public funding will be 200.000 € per project (including indirect costs). Please note that this amount can be increased to 250.000 € <u>per project</u> if Greek partner assumes the project coordination. The maximum state aid intensity will be calculated according to the provisions of the European state aid rules and regulations in force (type of research activity, size of the participating enterprise, collaborative research).
Eligibility of a partner as a beneficiary institution	<p>GSRI potentially supports all private and public legal entities namely: private enterprises (such as SMEs, large-companies etc), research organizations, higher education institutions, and other public organizations with R&D activities). Individuals as well as individual enterprises are not eligible under this scheme.</p> <p>Applicants may submit, if they are enterprises, up to two (2) proposals from the same enterprise in the current call, and for Public research Institutes and Universities up to (2) proposals at the level of the same Laboratory or School or Institute or Department.</p>
Eligible topics	TR1 and TR3

<p>Eligible type of research and TRL</p>	<p>TRL3-(8) in compliance with the (COMMISSION REGULATION (EU) 2021/1237 of 23 July 2021 amending Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty, page 3, article 13)</p>
<p>Submission of the proposal at national/regional level</p>	<p>At national level, only eligibility check is conducted and not a full peer review at pre-proposal and full proposal stages. We rely on the evaluation made by the Call Evaluation Committee and external reviewers.</p> <p><i>Submission at the national level is required at a later stage.</i> A national procedure will follow for the approved for funding, at the transnational level, proposals only. For more information please contact the NCP.</p>
<p>Additional eligibility criteria for the funding agency</p>	

Eligible costs

➤ **Aid of intensity**

Public research Institutes and Universities: the aid intensity can reach 100% for performing non-economic activities in accordance with point 19, article 2.1.1 of the «Framework for State aid for research and development and innovation» (2014/C 198/01).

Private Sector: (a) 50% of the eligible costs for industrial research; (b) 25% of the eligible costs for experimental development; (c) 50% of the eligible costs for feasibility studies.- The aid intensities for industrial research and experimental development may be increased up to a maximum aid intensity of 80% of the eligible costs as follows:

(a) by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises;

(b) by 15 percentage points if one of the following conditions is fulfilled:

(i) the project involves effective collaboration:

- between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70 % of the eligible costs, or
- between an undertaking and one or more research and knowledge-dissemination organisations, where the latter bear at least 10 % of the eligible costs and have the right to publish their own research results;

(ii) the results of the project are widely disseminated through conferences, publication, open access repositories, or free or open source software.

-The aid intensity for feasibility studies may be increased by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises.

➤ **Foreseen cost categories:**

(a) personnel costs: researchers, technicians and other supporting staff to the extent employed on the project.

(b) costs on fixed assets i.e. b1) costs of instruments and equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible and b2) costs for buildings and land, to the extent and for the duration period used for the project. With regard to buildings, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible. For land, costs of commercial transfer or actually incurred capital costs are eligible.

(c) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project.

(d) additional general costs and other operating expenses, including costs of materials, supplies, travel expenses, organization of meetings, dissemination/publicity costs, audit costs, incurred directly as a result of the project implementation.

(e) indirect costs = up to 25% of direct costs. Indirect costs are eligible for all legal entities and include costs that do not incur directly as a result of the project implementation (e. g. administrative and management costs, utility costs).

In compliance with the (COMMISSION REGULATION (EU) 2021/1237 of 23 July 2021 amending Regulation (EU) No 651/2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty.

ITALY – Ministero dello sviluppo economico (MISE)

a) National/Regional information and eligibility criteria

Contact Point	Name: Rosario Gargiulo; Valentina Milazzo rosario.gargiulo@mise.gov.it ; valentina.milazzo@mise.gov.it
Funding commitment	Euro 16 Mil
Anticipated number of projects to be funded by the funding partner	20
Maximum funding per awarded project / per partner	Euro 800k x project
Eligibility of a partner as a beneficiary institution	The following entities are eligible: - Enterprises - Universities, research centers and research organizations - only in collaboration with enterprises with which to set up a Consortium or a Network of Companies.
Eligible topics	7 Call Modules
Eligible type of research and TRL	applied research, experimental development TRL: (TRL 3-9)
Submission of the (pre)proposal at the national level	email address: dgiai.div6@pec.mise.gov.it
Additional eligibility criteria for the funding agency	Specific rules established by Recovery and Resilience Plan such as DNSH, Tagging, and resources to be addressed to the South of Italy.
Eligible costs	All costs incurred during the lifetime of a project under the following categories are eligible: personnel, equipment, subcontracting, consumables, and overheads. Overheads are calculated as a fixed percentage 25% of eligible costs of the project, as established by art. 20 of the delegated regulation (EU) n 480/2014 and by art. 29 of the regulation (EU) n. 1290/2013. They include also communication, dissemination and travel expenses.
Maximum amount of requested funding	Euro 800K
Website with additional information	www.mise.gov.it

Additional information	According to Article 2, paragraph 6-bis of the Decree Law 31 May 2021 n. 77, the Administrations ensure that at least 40% of the resources will be allocated to the beneficiaries of South Italy Regions. Nevertheless, it will be protected the interest in the total allocation of the resources put up for tender if the Ministry doesn't receive a number of applications, from Southern Italy applicants, that would exhaust the financial resources referred to the aforementioned reserve.

LITHUANIA – Ministry of Energy of the Republic of Lithuania (ENMIN)

a) National/Regional information and eligibility criteria

Contact Point	Daumantas Kerežis, daumantas.kerezis@enmin.lt
Funding commitment	1,4 mill. Eur
Anticipated number of projects to be funded by the funding partner	2-4
Maximum funding per awarded project/per partner	1 mill. Eur in TRI 1: Optimised integrated European net-zero emissions energy system (or TRI 5: Integrated regional energy systems – depending on pre-proposal stage results), 0,4 mill. Eur in TRI3: Enabling climate neutrality with storage technologies, hydrogen and renewable fuels and CCU/CCS
Eligibility of a partner as a beneficiary institution	Eligible applicants are legal entities, regardless of their legal form and financing method, which main activity is to carry out research and experimental activities and disseminate their results
Eligible topics	Energy systems and networks, in connection with RES usage in them; synthetic fuels (<i>keywords: distribution network, tariff setting, smart grids, smart solutions (algorithms, smart meters), demand aggregators, sector integration, transmission networks, effectiveness of abovementioned fields</i>)
Eligible type of research and TRL	(a) Fundamental research; (b) Industrial research; (c) Experimental development; (d) Feasibility studies. Projects should target at solutions within Technology Readiness Level (TRL) 5-7. Activities with lower TRL levels (3-4) may be included if they contribute to the higher project goal.
Submission of the proposal at national/regional level	Yes
Additional eligibility criteria for the funding agency	An applicant is ineligible if: 1. A bankruptcy case has been filed against it or it is being liquidated; 2. It has failed to fulfil obligations related to the payment of social insurance contributions and other tax obligations in accordance with the requirements of the legal acts of the Republic of Lithuania; 3. It has received state aid, which was recognized as illegal and incompatible with the internal market by the decision of the aid provider in Lithuania and the European Commission (regarding individual aid or an aid scheme), and has not returned the entire amount of illegal and incompatible aid, including interest, in accordance with the procedure established by legislation; 4. It is classified as a company in difficulty as defined in Regulation (EU) no. 702/2014 in point 14 of Article 2.

Eligible costs	<p>1. Personnel costs (payment for work to persons directly implementing CETP projects (wages, social security contributions, royalties and related taxes), business trip expenses for persons directly implementing CETP projects and directly related to the ongoing project);</p> <p>2. Purchase or rental costs of devices and equipment that will be exclusively used to carry out the CETP project and apply the results. If the operational period of these tools is longer than the duration of the CETP project implementation, only the depreciation costs of the tools corresponding to the duration of the project are covered;</p> <p>3. Costs for scientific research, know-how and patents carried out under project implementation contracts, purchased under license from other external sources at market price, as well as costs of consulting and equivalent services intended only for CETP project activities;</p> <p>4. Other operating costs (costs of acquisition of materials, reagents, instruments, work safety equipment, software and/or tools that are consumed during the execution of the CETP project and cannot be accounted for as fixed assets or equipment);</p> <p>5. Additional overhead costs directly related to the administration of the CETP project. These costs can be up to 20 percent. in the current year, the amount of costs actually incurred by the CETP project, financed from the state budget and EU funding. Eligible additional overhead costs directly related to the administration of the CETP project include:</p> <p>5.1. remuneration for the personnel administering the CETP project and the costs of their business trips directly related to the ongoing project;</p> <p>5.2. communications (telephone, mail, internet);</p> <p>5.3. rental and maintenance of premises;</p> <p>5.4. stationery supplies;</p> <p>5.5. audit costs;</p> <p>5.6. expenses for spreading and publicizing the knowledge and/or results obtained during the CETP project.</p>

<p>Other</p>	<p>N/A</p>

b) Funding rates

Maximum funding percentages:

- **Non-State Aid**

The financial contribution to an applicant (i.e., Public Entity or Public Research or Knowledge-Dissemination Organisation as defined above and in the National Rules for Participation) under non-state aid Rules for Participation shall be **100%** of the eligible costs incurred by that Partner.

- **State Aid – Regulation A (*de Minimis*)**

The financial contribution to a project partner (i.e., Eligible Undertaking as defined above and in the National Rules for Participation) applying under Regulation A (*de minimis*) shall be **up to 75%** of the eligible costs incurred on the project by that project partner. The partner must finance the remaining percentage of the eligible costs. It is not possible for a Partner to cover this percentage contribution 'in-kind'.

- **State Aid – Regulation B (GBER)**

The financial contribution to a project partner (i.e., Eligible Undertaking as defined above and in the National Rules for Participation) applying under Regulation B (GBER) shall following the current criteria:

Type of Research	Small Undertaking	Medium Undertaking	Large Undertaking
Fundamental Research	100%	100%	100%
Industrial Research	70%	60%	50%
Industrial Research with an effective collaboration and/or results are widely disseminated	80%	75%	65%
Experimental Development	45%	35%	25%
Experimental Development with an effective collaboration and/or results are widely disseminated	60%	50%	40%

The project involves **effective collaboration** if at least one of the following requirements is satisfied:

- Project is being handle between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70% of the eligible costs.
- Between an undertaking and one or more Research and Knowledge-dissemination Organisation/s where the latter bear at least 10% of the eligible costs and have the right to publish their own research results.

For the results of the project to be considered as being widely disseminated, this must be done through conferences, publications, open access repositories, or free or open-source software at the beneficiary's **own** expense. The activities to be undertaken to satisfy these criteria must be clearly made visible in the National Application Form.

THE NETHERLANDS– Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO)

a) National/Regional information and eligibility criteria

Contact Point	<p>Leon Leu, Program Officer NWO-AES (Dutch Research Council Applied and Engineering Sciences), +31 06 1395 2854</p> <p>Tom van Rens, Program Officer NWO-Domain Science, +31 6 2307 6121</p> <p>Email: cetpartnership@NWO.NL</p>
Funding commitment	€ 2.000.000
Anticipated number of projects to be funded by the funding partner	3-10
Maximum funding per awarded project/per partner	€ 650.000

<p>Eligibility of a partner as a beneficiary institution</p>	<p>For scientists based in the Kingdom of the Netherlands, the NWO eligibility criteria apply.</p> <p>Full, associate and assistant professors, lectors and other researchers with a comparable position* may submit an application (i.e. participate in a consortium and request NWO funding) if they have a tenured position (and therefore a paid position for an indefinite period**) or a tenure track agreement at one of the following organisations:</p> <ul style="list-style-type: none"> - Universities established in the Kingdom of the Netherlands; - University medical centres; - Institutes affiliated to the Academy (Royal Netherlands Academy of Arts and Sciences (Koninklijke Nederlandse Akademie van Wetenschappen (KNAW)) or NWO; - Universities of applied sciences as referred to in Article 1.8 of the Higher Education and Scientific Research Act (WHW); - the Netherlands Cancer Institute; - the Max Planck Institute for Psycholinguistics, Nijmegen; - the Naturalis Biodiversity Centre; - the Advanced Research Centre for NanoLithography (ARCNL); - the Princess Maxima Centre <p>*A comparable position refers to a researcher that has a demonstrable and comparable number of years of experience in carrying out scientific research and supervising other researchers as a full, associate or assistant professor.</p> <p>** Lectors employed at a university of applied sciences may also submit provided that they have at least a salaried position for a limited period of time.</p> <p>Persons with a zero-hour employment agreement or with a contract for a limited period of time (other than a tenure track appointment) may not submit a proposal.</p> <p>It could be the case that the applicant's tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant's tenured contract ends due to the applicant reaching retirement age. In that case, the applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project.</p> <p>Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested.</p>
---	---

Eligible topics	<p>Topics as defined in TRI2: Enhanced zero emission power technologies</p> <ul style="list-style-type: none"> - <i>Call module 2.1</i> Advancing RE technologies for power production through cost reduction - <i>Call module 2.2</i> Breakthrough R&D to increase RE power technologies efficiency
Eligible type of research and TRL	TRL level as determined by the call module
Submission of the proposal at national/regional level	cetpartnership@NWO.NL
Additional eligibility criteria for the funding agency	<p>An application for NWO funding (i.e. the Dutch part of a European consortium) has a single main applicant (i.e. Dutch Partner or Coordinator in the European consortium), responsible for scientific and financial management.</p> <p>An applicant may only request NWO funding for one project (part of a European consortium) in this call of the Clean Energy Transition Partnership.</p> <p>Applicants may not apply for a post-doc position for themselves.</p> <p>Impact of the research is at the heart of this call of the Clean Energy Transition Partnership. Please refer to the detailed description of requirements and evaluation criteria, including impact, in the full call announcement of the Clean Energy Transition Partnership.</p> <p>Stakeholder engagement is essential to maximize the chances of reaching impact and NWO considers engagement of stakeholders an important asset, starting with the design of your project, as well as the definition of active roles for each of them during the course of the project. Valorisation of stakeholder engagement in the project (as self financed industrial and/or societal partner) in the form of in kind or in cash contributions from stakeholders is therefore strongly recommended by NWO.</p>

Eligible costs

The NWO budget modules (including the maximum amount) available for this Call for proposals are listed below.

Apply only for funding that is vital to realise the project.
Available budget modules:

Personnel

Postdoc – according to UNL or NFU rates

Professional Doctorate in Engineering (PDEng), in combination with postdoc(s), according to UNL or NFU rates.

Research leave – max. 5 months, 1 fte, according to UNL or NFU rates

Personnel universities of applied sciences - rates based on Handleiding Overheidstarieven (HOT) (Manual for Dutch Government Fees) (<https://www.nwo.nl/en/salary-tables>)

Material costs – max. € 15.000 per year per scientific position

Knowledge utilisation - max. € 25.000

Internationalisation - max. € 25.000

For the budget module “Postdoc”, a one-off individual bench fee of € 5,000 is added on top of the salary costs to encourage the scientific career of the project employee funded by NWO.

Note that PhD positions cannot be applied for in this call, due to the maximum project duration of 3 years.

It is recommended to use the NWO budget template (obligatory in full proposal phase) in the pre-proposal stage to confirm eligibility of budget items.

A more detailed explanation of the NWO budget template can be found at the following web address: www.nwo.nl/cetp

Do not hesitate to contact the national contact persons in case of questions.

Information available at	www.nwo.nl/cetp
Other	<p>The NWO Grant Rules 2017 and the Approval of funding for scientific research 2008 are applicable to the part of the project's budget covered by the grant from NWO. Any arrangements made regarding the part of the project's budget covered by the grant from NWO, for instance in a Consortium Agreement, must comply with the NWO Grant Rules 2017 and the European legislation on state aid.</p> <p>Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on the NWO website:</p> <p>https://www.nwo.nl/en/lodging-objection</p> <p>NWO may award more than the maximum allowed budget (€ 650.000) per project to compensate for a mandatory one-off indexing of the salary costs with respect to UNL/NFU/HOT rates (if applicable).</p>

THE NETHERLANDS – Rijksdienst voor Ondernemend Nederland (RVO)

a) National/Regional information and eligibility criteria

Contact Point	Gerdi Breembroek Gerdi.breembroek@rvo.nl +31 6 5256 4480 Rebecca van Leeuwen Rebecca.vanleeuwen@rvo.nl 7
Funding commitment	8 million euros total commitment. 4 million euros from Regeling nationale EZK en LNV subsidies (RNES) § 4.2.10 ‘Demonstratie energie en klimaatinnovatie’ (DEI+) or § 4.2.3 ‘Hernieuwbare energietransitie’ (HER+). Actual funding will be adapted to volume of eligible projects. 4 million euro from RNES § 4.2.18 ‘ERA-NET Energieprojecten’ for call module 3.1 “CCU/CCS Technologies”
Anticipated number of projects to be funded by the funding partner	5-10 projects
Maximum funding per awarded project/per partner	For DEI+ and HER+: limitation as in funding instrument. For ‘RNES § 4.2.18’: € 1.500.000
Eligibility of a partner as a beneficiary institution	All instruments: at least one company should be collaborating in the consortium. Municipalities and provinces are not eligible. For DEI+, companies should realise the majority of the project cost. For HER+, (any) involvement of research organisations should be balanced by involvement of companies. The consortium should be suitable to contribute to the aims of the instruments.
Eligible topics	Module 1.2 RESDemoPowerflex Module 2.1 Advancing renewable energy technologies for power production through cost reduction Module 3.1 CCU/CCS technologies Module 3.2 Hydrogen and renewable fuels Module 4 Heating and cooling Module 5 Integrated Regional Energy Systems Module 6 Industrial Energy Systems Module 7.2 Solutions to energy transition in the built environment
Eligible type of research and TRL	For DEI+: Pilots (experimental development) and demonstration, indicative TRL 6-9 For HER+: Pilots and demonstration, experimental development and Industrial research (parts of the project), indicative TRL 4/5-9 For ‘RNES § 4.2.18’: Industrial research, experimental development, indicative TRL 4-7
Submission of the proposal at national/regional level	Please consult your national contacts with any questions!

	<p><u>HER+</u> Pre-proposal: Submission 'Projectidee' + 'Onderbouwing HER+' to RVO</p> <ul style="list-style-type: none"> - Deadline 24 November 2022 - '<u>Projectidee</u>': highlight how the international project objectives contribute to the aim of HER+, and the role and activities of the Dutch partners in the project - 'Onderbouwing HER+': instructions on: https://mijn.rvo.nl/tse-hernieuwbare-energietransitie, go to "bijlagen bij uw aanvraag". Please make sure that you use the current version and fill out both calculation models. - Submit all of this through RVOs 'Projectidee' tool, and by E-mail to the national contacts mentioned above as well. <p>Full proposal: Submission HER+ proposal to RVO</p> <ul style="list-style-type: none"> - Deadline 22 March 2023, unless instructed otherwise by the national contacts. - Submission through RVO's electronic submission system - Full national proposal, specifying the Dutch funding request roles and activities, with a full national project plan plus 'Onderbouwing HER+'. The HER+ proposal should be readable on its own, without the need to refer to the international proposal. - Please note that "E-herkenning niveau 3" is required. <p><u>DEI+</u> Pre-proposal: Submission 'Projectidee' to RVO</p> <ul style="list-style-type: none"> - Deadline 24 November 2022 - '<u>Projectidee</u>': highlight how the international project objectives contribute to the aim of DEI+, and the role and activities of the Dutch partners in the project - Submit through RVOs 'Projectidee' tool, and by E-mail to the national contacts mentioned above as well. <p>Full proposal: Submission DEI+ proposal to RVO</p> <ul style="list-style-type: none"> - Deadline 22 March 2023, unless instructed otherwise by the national contacts. - Submission through RVO's electronic submission system - Full national proposal, specifying the Dutch funding request roles and activities, with a full national project plan. The DEI+ proposal should be readable on its own, without the need to refer to the international proposal. - Please note that "E-herkenning niveau 3" is required. <p><u>RNES § 4.2.18</u> Pre-proposal: Submission 'Projectidee' to RVO</p> <ul style="list-style-type: none"> - Deadline 24 November 2022 - '<u>Projectidee</u>': highlight the role and activities of the Dutch partners in the project - Submit through RVOs 'Projectidee' tool, and by E-mail to the national contacts mentioned above as well. <p>Full proposal: Submission RNE § 4.2.18 project to RVO</p> <ul style="list-style-type: none"> - Deadline 22 March 2023. - Submission through RVO's electronic submission system
--	---

	<ul style="list-style-type: none"> - Specifying the Dutch funding request with the customary RVO TSE budget sheet, and presenting the international project plan. - Please note that “E-herkenning niveau 3” is required.
Additional eligibility criteria for the funding agency	The HER+ and DEI+ have their own requirements and conditions. In order to be eligible for one of these schemes, you have to positively meet the specific requirements of the scheme. Please consult the relevant information, see links below.
Eligible costs	<p>Definitions according to the guidelines laid down in the General Block Exemption Regulation (GBER – In Dutch AGVV), Article 25 covers Research and development, other articles cover investment aid in specific categories.</p> <p>HER+: GBER Articles 25, 38, 41, see Internet pages and manual (Dutch)</p> <p>DEI+: GBER Articles 25, 36, 38, 41, 46, 47, 56, see Internet pages and manual (Dutch).</p> <p>‘RNES § 4.2.18’ (CCU/CCS only): Article 25, industrial research and experimental development</p>
Information available at	<p>www.rvo.nl/tse - select the relevant funding scheme. Please read the “Handleiding” (=manual) carefully</p> <p>for HER+ https://www.rvo.nl/subsidies-financiering/her Handleiding: https://www.rvo.nl/sites/default/files/2022-07/RVO-Handleiding-Hernieuwbare-energietransitie-juli-2022_0.pdf</p> <p>for DEI+ https://www.rvo.nl/subsidies-financiering/dei Handleiding: Go through DEI pages for the up-to-date</p>

Other	<p>The national evaluation process will be the customary process for DEI+ and HER+, please consult the respective manuals. International evaluation leading in case of 'RNES § 4.2.18'.</p> <p>For obvious reasons, the results of the national evaluation process shall be communicated after the trans-national funding recommendations have been made, irrespective of your date of submission. Without the international partners, the project cannot be implemented as proposed and will not be funded.</p> <p>Customary national progress reporting will be required for all funded projects.</p> <p>This annex must be regarded as a guide. The information contained herein is not complete about the national regulations.</p> <p>For specific details and conditions you should always consult the original regulation texts, manuals and websites.</p> <p>It is strongly recommended to contact the national contact points to discuss the pre-proposal as well as full-proposal before submission.</p>

POLAND – The National Centre for Research and Development (Narodowe Centrum Badań i Rozwoju, NCBR)

a) National/Regional information and eligibility criteria

Contact Point	Name: Jolanta Drożdż E-mail: jolanta.drozdz@ncbr.gov.pl Tel: +48 22 39 07 106, +48 509 216 759
Funding commitment	3 000 000 EUR
Anticipated number of projects to be funded by the funding partner	4 or more
Maximum funding per awarded project / per partner	750 000 EUR per project or all Polish partners in one project
Eligibility of a partner as a beneficiary institution	<ul style="list-style-type: none"> • Enterprises² - SME and Large, • Groups of entities composed of at least two enterprises, • Groups of entities composed of at least one research organisation and at least one enterprise. <p>Entities must conduct its business, R&D or any other activity on the territory of the Republic of Poland, confirmed by an entry into the relevant register³.</p> <p>A condition for the participation of a group of entities as the Applicant in the call is its formal existence on the date of submission of the pre-proposal, confirmed by its members concluding, at least conditionally, an agreement on the creation of a group of entities.</p>
Eligible topics	<ul style="list-style-type: none"> • TRI1 – PowerPlanningTools • TRI1 – RESDemoPowerflex • TRI2 - Advancing RE technologies for power production through cost reduction • TRI2 - Breakthrough R&D to increase RE power technologies efficiency • TRI5 - Integrated Regional Energy Systems • TRI6 - Industrial energy systems
Eligible type of research and TRL	Type of research: <ul style="list-style-type: none"> • Industrial/Applied research, • Experimental development, <p>TRL: 4-8</p>
Submission of the (pre)proposal at the national level	Polish Participants will be informed and invited to submit Polish full proposal once the international evaluation and the ranking list will be established. Only projects recommended for funding will be asked to submit a national

² defined in Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty;

³ if applicable.

	<p>application form.</p> <p>All eligible entities, invited to submit Polish full proposal are obliged to use the rate of exchange of The European Central Bank dated on the day of opening the call.</p> <p>If more than one Polish entity participates in the project, the national application is submitted by a consortium (group of entities) of all Polish entities.</p>
Additional eligibility criteria for the funding agency	n/a
Eligible costs	<p>The eligible costs shall be the following:</p> <ol style="list-style-type: none"> 1. personnel costs (researchers, technicians and other supporting staff to the extent employed on the research project); 2. costs of subcontracting, costs of consultancy and equivalent services used exclusively for the research activity; this cost type cannot account for more than 70% of all eligible costs of a project; the subcontracting can be obtained from consortium partner only in justified case, this need will be verified by a national experts panel; 3. operating costs including: <ul style="list-style-type: none"> • costs of instruments and equipment, technical knowledge and patents to the extent and for the period used for the research project; if such instruments and equipment are not used for their full life for the research project, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice, shall be considered eligible; • costs for buildings and land, to the extent and for the duration used for the research project; with regard to buildings, only the depreciation costs corresponding to the life of the research project, as calculated on the basis of good accounting practice shall be considered eligible; for land, costs of commercial transfer or actually incurred capital costs shall be eligible; • other operating costs including costs of materials, supplies and similar products incurred directly as a result of the research activity; 4. additional overheads incurred indirectly as a result of the research project; that costs should account 25% of all eligible project costs; That costs (4) are counted as a multiplication by percentage given above (called x%) and the rest of direct costs, excluding subcontracting (2); It means $4=(1+3)*25\%$.
Maximum amount of requested funding	750 000 EUR per project
Website with additional information	www.ncbr.gov.pl

Additional information	<p>All proposals must be aligned with national regulations, inter alia:</p> <ul style="list-style-type: none"> • The Act of 20 July 2018 - Law on Higher Education and Science; • The Act of 30 April 2010 on the National Centre for Research and Development; • The Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, which is in line with the Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation); • The Regulation of the Minister of Science and Higher Education of 17 September 2010 on the detailed mode of performance of tasks of the National Centre for Research and Development.
-------------------------------	---

b) Funding rates

Maximum funding percentages:

	Basic research	Industrial/Applied Research	Experimental development/innovation
Large Enterprises	not eligible	Up to 50+15 (max 65%)	Up to 25+15 (max 40%)
Medium Enterprises	not eligible	Up to 50+10+15 (max 75 %)	Up to 25+10+15 (max 50 %)
Small Enterprises	not eligible	Up to 50+20+15 (max 80 %)	Up to 25+20+15 (max 60 %)
Universities, public research organisations	not eligible	Up to 100%	Up to 100%
Public authorities	not eligible	not eligible	not eligible
Associations without economic activities, NGOs	not eligible	not eligible	not eligible

Funding quota for Polish participants may be up to 100% for universities and research organisations. In case of enterprises, funding quota will be decided on a case-by-case basis depending on the size of the company and type of research/development under Section 2 of the Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, published in Journal of Laws item 1456, 2020.

In any case only Industrial Research and Experimental Development will be funded. Other type of activities (e.g. coordination, dissemination, management) cannot be included into separated task.

PORTUGAL – FUNDAÇÃO PARA A CIÊNCIA E A TECNOLOGIA I.P. (FCT)

a) National/Regional information and eligibility criteria

Contact Point	<p>Joana Pinheiro T: [+351] 213 911 567 joana.pinheiro@fct.pt</p> <p>Alexandre Maurício T: [+351] 213 917 648 alexandre.mauricio@fct.pt</p>
Funding commitment	500.000,00 €
Anticipated number of projects to be funded by the funding partner	3 to 4 (three to four)
Maximum funding per awarded project/per partner	The maximum requested funding for a consortium with Portuguese coordination is 175 000,00 € and for a consortium with Portuguese participation is 125 000,00 € . In case that more than one Portuguese team participates in the same consortium the budget must be shared.
Eligibility of a partner as a beneficiary institution	For eligibility of a partner as beneficiaries please consult Article 3 of FCT Regulation on projects funded solely by national funds
Eligible topics	All topics are eligible provided projects should follow a research-oriented approach .
Eligible type of research and TRL	Type of research: strategic (basic) research, applied research. TRL: 1 to 8, preferably 4 to 6.
Submission of the proposal at national/regional level	Not applicable
Additional eligibility criteria for the funding agency	For eligibility criteria of beneficiaries and projects please consult articles 5 and 6 of FCT Regulation on projects funded solely by national funds
Eligible costs	For eligible costs and non-eligible cost please consult articles 8 and 9 of FCT Regulation on projects funded solely by national funds
Information available at	https://www.fct.pt/apoios/cooptrans/cetp/index.phtml.pt

Other	<ul style="list-style-type: none"> • For additional information please check FCT Regulation on projects funded solely by national funds. • <u>The percentage of time dedicated to transnational projects will not be added to the percentage of time dedicated to existing national projects.</u> • Up to 10 working days after the deadline for submission of pre-proposals, Portuguese teams (coordinators and/or partners) must send the following statement of commitment to the National Contact Point for the call, duly signed by the Researcher in Charge and by the legal representative of the Proposing Institution and stamped. The original must be kept, as it may be requested by the FCT.

Maximum funding per awarded project/per partner	<p>The following funding limits (including direct + indirect costs) are considered eligibility criteria. Proposals not respecting these limits could be declared ineligible. Please, indicate separately direct and indirect cost and keep amounts multiple of 1000. In any case, the AEI will round the numbers to a multiple of 1000.</p> <ul style="list-style-type: none"> • If a Spanish Partner requesting funding to the AEI is NOT the Main Applicant (Coordinator) of the transnational project: <ul style="list-style-type: none"> - there is only one Spanish Partner requesting funding to the AEI in the proposal, the maximum funding is € 200.000 - there are two Spanish Partners in the proposal requesting funding to the AEI, the maximum funding amount per proposal is € 250.000 • If a Spanish Partner requesting funding to the AEI IS the Main Applicant (Coordinator) of the transnational project: <ul style="list-style-type: none"> - there is only one Spanish Partner in the proposal, acting as a coordinator, the maximum funding is € 300.000 - there is one Spanish Partner in addition to the Spanish Coordinator in the proposal, both requesting funding to the AEI, the maximum funding amount per proposal is € 350.000 <p>IMPORTANT: a maximum of two Spanish Partners requesting funding to the AEI in the same Proposal are allowed Centres formed by different Spanish legal entities will be considered as a unique entity, and thus the maximum funding should not exceed the limits per proposal established above (for example mixed centres).</p>

<p>Eligibility of a partner as a beneficiary institution</p>	<p>Non-profit research organizations (such as universities, public research institutions, technological centres and other private non-profit institutions performing RDI activities in Spain), as the general requirements established for PCI 2022-1 call <u>PCI 2022-1</u>. They must have been previously beneficiaries of any of the AEI calls. They have to ensure contractual relationship with the Principal Investigator during all the time of development of the project.</p> <p>Spanish industrial sector is welcome to participate in the transnational consortia using funds from the CDTI (also participating in this call) or other innovation and technological development funding agencies or own funds</p>
<p>Eligible topics</p>	<p>All</p>
<p>Eligible type of research and TRL</p>	<p>Basic/Applied research & Innovation. AEI funds are intended to support relevant research and innovation developments of our beneficiaries and those tasks necessary to accomplish them. In case of coordinators, management of the consortium will be included too. Applicants mainly participating in task not directly involving research and innovation can be considered non-eligible.</p> <p>TRL: no constrains</p>
<p>Submission of the proposal at national/regional level</p>	<p>No</p> <ul style="list-style-type: none"> • However, at pre-proposal stage, PIs and beneficiaries are encouraged to check eligibility before submitting the proposal, since no changes will be accepted afterwards. • It is important to know that no PI or beneficiary changes will be accepted between pre and full proposal. <p><u>Funding Programme:</u> The framework for this funding action is the Plan Estatal de Investigación Científica, Técnica e Innovación 2021-2023. On a national level, the Call will be managed by the Subdivisión de Programas Científico-Técnicos Transversales, Fortalecimiento y Excelencia (STRAN) of the AEI.</p> <p><u>Instrument for funding</u> The instrument for funding the Spanish groups is the call on “Proyectos de Colaboración internacional (PCI)”. Please consult the requirements of <u>PCI 2022-1</u> as they will be similar. Applicants are encouraged to carefully read the call and the general requirements.</p> <p><u>Data Protection:</u> By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data</p>

<p>Additional eligibility criteria for the funding agency</p>	<p>The Spanish Principal Investigators (PIs) must hold a PhD degree.</p> <p>PIs must be eligible according to the general requirements of PCI 2022-1 call and must have experience as investigators (not necessarily as PIs) in projects funded by the Plan Nacional I+D+i 2008-2011, the Plan Estatal I+D+i 2013-2016, the Plan Estatal I+D+i 2017-2020, ERC Grants, European Framework Programmes or other relevant national or international programmes.</p> <p>Incompatibilities (these must be taken into account when participating in different ERA-Nets or other international initiatives):</p> <ul style="list-style-type: none"> • PIs will not be eligible for funding if they apply as PIs to more than one proposal in this transnational joint call, to more than one proposal in the same Spanish PCI call and/or to PCI calls of consecutive years. • If the same PI submits two or more proposals to the present call, all but one will be declared ineligible, without the possibility of changing the PI. • A PI that has been granted a PCI the previous year will be declared ineligible, without the possibility of changing the PI. • PIs must remain unchanged between the proposal of this transnational joint call and the national PCI call. <p>The AEI will avoid double funding and will not grant projects or parts of projects already funded through other national or EU calls.</p>
<p>Eligible costs</p>	<ul style="list-style-type: none"> • Only personnel costs for exclusive dedication to the project are eligible. The costs of permanent staff linked to the beneficiary entity or members of the research team will not be considered eligible costs. • Direct costs such as current costs, small scientific equipment, disposable materials, travelling expenses, coordination costs, and other costs that can be justified as necessary to carry out the proposed activities. VAT could be non eligible, depending on the application of RRF funds. • Indirect costs (overheads) are eligible costs (21% of total direct costs, including outsourcing). • Subcontracting should not exceed 25% of total final budget (excluding overheads). <p>Please consult “<i>Artículo 8. Conceptos financiables</i>” in PCI 2022-1 resolution since eligible cost will be similar.</p>

Information available at	Please consult the requirements of PCI2022-1 as they will be similar. Applicants are encouraged to carefully read the call and the general requirements.
Other	<u>Acknowledgement:</u> Any publication or dissemination activity resulting from the granted projects <u>must</u> acknowledge funding by the Agencia Estatal de Investigación according to AEI's web guidelines .

SWEDEN – Swedish Energy Agency (SWEA)

a) National/Regional information and eligibility criteria

Contact Point	<p>CETPartnership@energimyndigheten.se, +46 (0)16 544 2000, Mer info: https://www.energimyndigheten.se/utlysningar/CETPartnership_2022</p>
Funding commitment	7 MEUR available funding for Swedish partners
Anticipated number of projects to be funded by the funding partner	5 -15
Maximum funding per awarded project/per partner	No specific limitation
Eligibility of a partner as a beneficiary institution	<p>All actors operating in Sweden are eligible for funding. For example Public and private entities such as:</p> <ul style="list-style-type: none"> • Universities • Research institutes • Companies • Municipalities/Regions <p>Decisions on funding research, development and innovation in the energy area are taken according to the <u>ordinance SFS 2008:761 in the Swedish Code of Statues.</u></p> <p>Decisions on funding research, development and innovation in the industry's climate transition area are taken according to the <u>ordinance SFS 2017:1319 in the Swedish Code of Statues.</u></p> <p>Decisions on funding research, development and innovation for academia and research institutes are taken according to regulation 2022 for The Swedish Energy Agency: https://www.esv.se/statsliggaren/regleringsbrev/?rbid=22389</p>

<p>Eligible topics</p>	<p>The Swedish Energy Agency welcomes projects related to all the topics described in the call text and in all call modules. Applicants are encouraged to check for their specific topic in the following SWEA financing programs: Framtidens elsystem, Bio+, Industrikivet, Industrins energi- och klimatomställning, Termo, E2B2, Digitalisering möjliggör energi- och klimatomställningen.</p> <p>International applications that include Swedish organizations will be evaluated by an internal group of experts from SWEA during the national eligibility check. This evaluation will check that formal requirements are fulfilled, and as well it will check that the application is relevant in relation to SWEA's energy and climate change mission.</p>
<p>Eligible type of research and TRL</p>	<p>Industrial research and experimental development can be supported if overall project scope is relevant to the call text.</p>
<p>Submission of the proposal at national/regional level</p>	<p>Only consortia selected for funding after final evaluation of full proposal will be invited to write a full proposal at the national level.</p>
<p>Additional eligibility criteria for the funding agency</p>	<p>Swedish sub-consortia need to include at least one non-research organisation.</p>

Eligible costs	<p>Personnel costs, travel costs, consultancy, material costs, laboratory costs, equipment costs, patent, indirect costs (only academia and research institutes). http://www.energimyndigheten.se/globalassets/utlysningar/anvisningar-foransokan.pdf</p> <p>For more information regarding eligible costs and SWEA's legislation see the Swedish national information on the call via the link below:</p>
Information available at	<p>information on CETPartnership call at the Swedish Energy Agency web page: https://www.energimyndigheten.se/utlysningar/CETPartnership_2022</p>
Other	<p>The Swedish Energy Agency (SWEA) funds research and innovation projects that support energy system transformation into a modern and sustainable, fossil-free society.</p> <p>Submission of the proposal at the national level: Following the full proposal stage of the international Expert Panel evaluation, the Swedish Principal Investigators in the projects recommended for funding will be invited to submit a national application to SWEA (via <u>mina sidor</u>).</p> <p>Information about the submission will be provided in the invitation and by the contact person.</p> <p>Submission of financial and progress reports at the national level: Following the national project decision: the funded projects will be required to submit one financial and one progress report annually to SWEA (via <u>mina sidor</u>)</p>

SWITZERLAND – SWISS NATIONAL SCIENCE FOUNDATION, (SNSF)

a) National/Regional information and eligibility criteria

Contact Point	Name: Daniel Krämer E-mail: cetp@snf.ch Tel: +41 31 308 22 22
Funding commitment	€ 550.000/year
Anticipated number of projects to be funded by the funding partner	1 – 2
Maximum funding per awarded project/per partner	To provide for a greater degree of flexibility, there is no maximum contribution set per project for the Swiss part. Nevertheless, budgets of a collaborative research project must be balanced and the SNSF expects that applicants carefully consider the budgetary request in a relation to the effective needs of the project.
Eligibility of a partner as a beneficiary institution	Applications must comply with the SNSF Regulations on Project Funding and practices.
Eligible topics	TRI 5 + TRI 7
Eligible type of research and TRL	The SNSF exclusively funds basic research conducted for purposes that are not directly commercial. Pursuant to the Research and Innovation Promotion Act (RIPA) and the legal framework of the SNSF, no research grants are awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work are not scientifically independent. Thus, the SNSF can fund basic research and applied research without commercial goals only. TRL: 1 to maximum 4
Submission of the proposal at national/regional level	Swiss based partners submitting to the SNSF must provide basic administrative data by submitting administrative applications via the online submission system mySNF for the same deadlines as the consortium applications. For this, Swiss based partners need a personal account on www.mySNF.ch . Please select the “Partnerships” funding instrument when creating the administrative application for the “CETP: Pre-Proposal” and “CETP: Full Proposal” if you are invited to submit a proposal for the second stage. The pre-proposal can be used as a template when the full proposal is created in mySNF and should be referred to in the section “Relation to pre-proposal” of the full proposal. In case of funding, consortia including Swiss partners at the SNSF must submit a data management plan (DMP) on mySNF which complies with the SNSF policy on open research data .

Additional eligibility criteria for the funding agency	All Swiss applicants submitting to the SNSF and co-applicants must be eligible for the SNSF Project Funding Scheme. Please note that applications submitted by a non-eligible person will not be considered nor evaluated. Please refer to the regulations and contact the national contact person for questions and re-assurance.
Eligible costs	<ul style="list-style-type: none"> ○ Personnel costs ○ Operational costs ○ Subcontracting <p>Please refer to the Regulations on project funding (Article 8). Overhead contributions cannot be applied for: they are calculated based on the total research funding given to a particular institution through all SNSF funding instruments, and are paid directly to the applicant's institution on a yearly basis.</p>
Information available at	Project funding (snf.ch)
Other	<p>National Regulations:</p> <ul style="list-style-type: none"> • SNSF Funding regulations • SNSF Project Funding regulations • General implementation regulations for the Funding Regulations <p>Article 7.3. of the Regulations on SNSF project funding applies. Swiss based applicants may participate in at most one proposal per call. Partners of the international project consortium applying for funding at other funding agencies than the SNSF cannot be declared as project partners in the sense of article 11.2 of the SNSF Funding Regulations. They should be declared as consortium partners instead and apply for their funding at their respective research funding organisation. Article 17 of the SNSF Funding Regulations only applies in the sense that proposals with overlapping funding periods are only approved if the research projects pursue different goals in the context of this European programme than any ongoing projects by the same applicant. Grants will be managed according to standard SNSF rules. Yearly financial reports for the use of SNSF funds and a scientific report at the end of the project will be required.</p>

UNITED KINGDOM/SCOTLAND – Scottish Enterprise (SE)

a) National/Regional information and eligibility criteria

Contact Point	National contact person: Karen Fraser (Karen.Fraser@scotent.co.uk) or Kate Henderson (kate.henderson@scotent.co.uk)
Funding commitment	£6,000,000 (7,105,377 Euros)
Anticipated number of projects to be funded by the funding partner	6-8 projects, but flexible
Maximum funding per awarded project/per partner	No maximum
Eligibility of a partner as a beneficiary institution	<p>Companies (SME or large) that are legal entities registered, operating and carrying out research and development activities within Scotland or companies intending to establish a presence within the area to carry out research and development activities.</p> <p>Universities or other research organisations (ROs) that are legal entities registered and operating in Scotland, subject to the following conditions:</p> <ul style="list-style-type: none"> • ROs will only be eligible if there are at least two companies involved in the collaborative project, one of which must be a company eligible for and requesting SE funding; • The work being carried out by the research organisation should be of direct relevance to at least one of the participating Scottish companies; • The budget of the Scottish research organisation should be no greater than the combined budgets of the Scottish companies involved in the collaborative project and seeking funding from SE.
Eligible topics	<p>SE will only support applications that address challenges within the following call modules:</p> <p>2.2 Enhanced Zero-emissions Power Technologies – Breakthrough R&D to increase RE power technologies efficiency – focus on offshore wind and ocean energy</p> <p>3.1 & 3.2 Enabling Climate Neutrality with Storage Technologies, Renewable Fuels (including hydrogen) and CCU/CCS</p> <p>4 Efficient Zero Emissions Heating & Cooling Solutions</p> <p>6 Integrated Industrial Energy Systems</p> <p>7.1 and 7.2 Integration in the Built Environment</p>

<p>Eligible type of research and TRL</p>	<p>No specific rules on TRLs; please refer to CETP call modules. Research should be relevant to the business plans of Scottish companies involved in the consortium.</p>
<p>Submission of the proposal at national/regional level</p>	<p>Yes, at Full Proposal stage. Further information will be provided to applicants invited to Stage 2.</p>
<p>Additional eligibility criteria for the funding agency</p>	<p>Scotland's Fair Work First Principles As part of their Fair Work Action Plan, the Scottish government has set out the goal to make Scotland a Fair Work Nation by 2025. To help achieve this goal, applicants for Scottish Enterprise grant support will be assessed against the Scottish Government's seven Fair Work First Criteria as follows:</p> <ul style="list-style-type: none"> • appropriate channels for effective voice such as trade union recognition; • investment in workforce development; • no inappropriate use of zero hour contracts; • action to tackle the gender pay gap and create a more diverse and inclusive workforce • payment of the Real Living Wage. • Flexible and family friendly practices • No hire and rehire policies <p>Please note that to secure a R&D grant, you must be able to demonstrate that your business has met or will meet the Fair Work First Criteria within six weeks of signing any contract of award. If you are unable to commit to the criteria, Scottish Enterprise may not be able to offer you an award at this time.</p> <ul style="list-style-type: none"> • The project / activity must be strategically important to the Scottish company and in line with its business plan. • The project must involve research and development activity in Scotland. However, testing in a demonstration site outside Scotland is also eligible. • Projects must have the potential to deliver benefits to Scotland's economy and the new product, process or service must, in the case of non-SMEs, be able to compete in a global marketplace. Proposals must demonstrate how the project will be implemented to ensure capability building and sustainability in Scotland to enhance the companies' future competitiveness and research and development capacity. • For large companies seeking support, the project must demonstrate the incentive effect of the grant (i.e. how the applicant's level of R&D expenditure or R&D jobs will be increased as a result of support). <p>Detailed guidance available from the named contacts.</p>

Eligible costs	Project-specific costs including salaries, overheads, equipment, sub-contracting, consultancy, training, materials, trials, IP management (SMEs only), travel and subsistence, and audit certificates for financial claims (SMEs only).
Information available at	From contacts above
Other	Please speak to Scottish Enterprise contact prior to submitting proposal to discuss the project scope. Projects should include the development of new products, processes or services for Scottish companies.
