[Provide a brief narrative under each evaluation criterion, Excellence, Impact, and Quality and efficiency of the implementation, considering the aspects listed below. Present the important aspects of your planned work in a way that will enable evaluation experts to make an effective assessment according to the evaluation criteria.]

1. EXCELLENCE

Gender dimension and open science practices can be described in the full proposal at Stage 2.

1.1 Objectives

Briefly describe why the objectives of your project are pertinent to the topic of the Call and Call Module.

1.2 Ambition and the state-of-the-art

Briefly describe how ambitious the project's objectives are, and how far your project goes beyond the state-of-the-art.

1.3 Methodology

Briefly describe the overall methodology and explain how this will enable you to deliver your project's objectives. Refer underlying concepts, models, assumptions and interdisciplinary approaches, where appropriate.

2. IMPACT

Show how your project could contribute to the outcomes and impacts described in the Call and Call Module, and the likely scale and significance of this contribution, beyond the immediate scope and duration of the project. The outcomes and impacts of your project may be scientific, economic, technological, societal or environmental.

2.1 Pathways towards impact

Briefly explain how the project's results are expected to make a difference in terms of impact.

2.2 Project's contributions

Give an indication of the scale and significance of the project's contribution to the expected outcomes and impacts through appropriate involvement of end-users and other relevant target groups.

2.3 Added value of the transnational collaboration

Briefly explain the benefits of the transnational collaboration in your project.

2.4 Measures to maximise impact

Briefly describe the dissemination, exploitation and communication measures that are planned, and the target group(s) addressed, to maximise the impact of your project.

3. QUALITY AND EFFICIENCY OF THE IMPLEMENTATION

Risk assessment as well as effort (person-months) and resources (costs) per work package and partner can be described in the full proposal at Stage 2.

3.1 Work plan

Briefly present the overall structure and coherence of the work plan, with work packages (including Reporting and Knowledge Community work package) and their objectives.

3.2 Participants and consortium as a whole

Briefly describe the consortium as a whole: how it matches the project's objectives and brings together the necessary expertise. Briefly describe the contribution, role and resources of each participant.
