

Clean Energy Transition Partnership

Checklist of national/regional requirements and guidelines

For applicants to the Joint Call 2025

2025-07-17

The Clean Energy Transition Partnership is a transnational joint programming initiative to boost and accelerate the energy transition, building upon regional and national RDI funding programmes. The initiative is receiving funding from the European Union's research and innovation programme "Horizon Europe" under grant agreement No 101069750.

Checklist of national/regional requirements and guidelines

To avoid being deemed ineligible by national/regional Funding Organisations, all Project Consortia are encouraged to check carefully all the relevant national/regional requirements and guidelines, with relevant contacts if necessary, before starting to develop their proposal.

Information about the national/regional requirements and guidelines is available on [Funding Organisations and Call Modules | CETPartnership](#) (per Funding Organisation) and [Joint Call 2025 Documents | CETPartnership](#) (composed/compiled).

The following is a list of common comments from national/regional Funding Organisations to Project Consortia about ineligibility and headlines with relevant information of national/regional requirements and guidelines.

Comment	Headline
Topic not covered by/not relevant for the Funding Organisation	Call Modules and topics
National/regional application/declaration/documentation missing	Proposal submission
Beneficiary Partner ineligible for funding	Project Consortium Partners
Involvement of companies/industry insufficient/lacking	Project Consortium Partners
Budget issues	Project budget , including Funding request , Funding rates , Types of cost
TRL too high/low/limited innovation	RDI approaches and TRLs

Please also consider:

- Funding Organisations may have choosed to describe their information under other headlines than mentioned in the table above.
