

Amendment to the CETPartnership Joint Call 2022

Amended parts in the CETPartnership Joint Call 2022¹ are shown in grey below.

2.3 Timeline for the CETPartnership Joint Call 2022

CETPartnership Joint Call 2022 timeline	
Joint Call 2022 opens for pre-proposal submission	14 September 2022
Deadline pre-proposal submission	23 November 2022, 14.00 CET
Decision communicated to applicants Joint Call 2022 opens for full proposal submission	27 January 2023
Deadline full proposal submission	27 March 2023, 14.00 CET
Funding decision communicated	June 2023
Project start	September 2023

5.5. Submission of full proposal

In stage 2, a full proposal and any supporting documents must be submitted by the project Coordinator through the CETPartnership Application portal. The deadline for submission of full proposals is the **27th of March 2023, 14:00 CET**.

The full proposal must be consistent with the pre-proposal and may not differ substantially. Minor elements regarding content, project duration, costs, funding, or the roles assigned to the consortium partners, might be slightly altered between phase 1 and phase 2. Such changes must be communicated to the involved project partners and the relevant Funding Partner(s).

Changes in the consortium composition should be avoided, except in cases where an ineligible partner or ineligible partner(s) can be replaced by (a) partner(s) from undersubscribed countries/regions. This possibility is only open for project proposals that are still fulfilling the transnationality criterion without the ineligible partner. Modifications of the consortium are restricted to partners from countries/regions already part of the pre-proposal consortium, with a potential addition of (a) partner(s) from undersubscribed countries. The project Coordinator cannot be changed. Inclusion of (a) new partner(s) from undersubscribed countries need to be approved by the relevant Funding Agency.

The Clean Energy Transition Partnership is a transnational joint programming initiative to boost and accelerate the energy transition, building upon regional and national RDI funding programmes. The initiative is receiving funding from the European Union's research and innovation programme "Horizon Europe" under grant agreement No 101069750.

Under the following conditions, new partners from undersubscribed Funding Partners can be added to a project consortium:

- (A) new partner(s) from any of the undersubscribed Funding Partners can be added to the project consortium.
- The role and activities of the new partner(s) should be well motivated in relation to the overall project ambition and scope, describing also the widening effect of this addition.
- The addition of the new partner(s) cannot change more than 25% of the total project budget.
- The change in the project consortium must be approved by all project partners and the relevant Funding Partner(s) before submission of the full proposal. Proof in writing (E-mail) from the Funding Partner(s) is required.

The undersubscribed Funding Partners are as follows²

Country/region	Organisation name	Acronym
Austria	Austrian Research Promotion Agency	FFG
Belgium/Flanders region	Fonds Innoveren en Ondernemen	FIO
Belgium/Wallonia region	Service public de Wallonie	SPW
Canada/Alberta region	Emissions Reduction Alberta	ERA
Cyprus	Research and Innovation Foundation	RIF
Czech Republic	Technology Agency of the Czech Republic	TA CR
Estonia	Ministry of Economic Affairs and Communications	MKM
Finland	Innovaatorahoituskeskus Business Finland	BF
France	Agence Nationale de la Recherche	ANR
France	Agence de la transition écologique	ADEME
France/Pays de la Loire region	Pays de la Loire Region Council	RPL
Hungary	National Research, Development and Innovation Office	NKFIH
Iceland	The Icelandic Centre for Research	RANNIS
Ireland	Geological Survey Ireland	GSI
Israel	Ministry of Energy	MoE
Italy	Ministry of Economic Development	MISE
Italy	Ministero dell'Università e della Ricerca	MUR
Latvia	Latvian Council of Science	LZP
Lithuania	Ministry of Energy of the Republic of Lithuania	ENMIN
Malta	Malta Council for Science and Technology	MCST
The Netherlands	Dutch Research Council	NWO
Spain /Asturias region	Fundación para el fomento en Asturias de la Investigación Científica Aplicada y la Tecnología	FICYT

² Please note that this is a provisional list – Some agencies might have national provisions that needs to be fulfilled, please contact the relevant funding agency.

Spain/Basque region	Departamento de Desarrollo Económico, Sostenibilidad y Medio Ambiente. Eusko Jurlaritzza-Gobierno Vasco	EUSKADI
Spain/Basque region	Ente Vasco de la Energía	EVE
Switzerland	Federal Department of the Environment, Transport, Energy and Communications	DETEC-SFOE
Switzerland	Swiss National Science Foundation	SNSF
Türkiye	The Scientific and Technological Research Council of Türkiye	TUBITAK
